Project Description:

This is a campus-wide capital renewal project addressing HVAC, building envelope, lighting, technology and low-voltage system issues.

The HVAC scope includes:

- Refurbishment of campus Air Handling Units
- Replacement of all HVAC fan terminal boxes and all outside air dampers and exhaust fans
- A new Building Automation System

The building envelope improvements include:

- Replacement of roof-related sealants
- New gutters and downspouts

The remaining scope includes:

- New exterior building and courtyard lighting
- New gymnasium lighting
- New network fiber backbone
- Replacement of the existing fire alarm and intercom systems
- Replacement and expansion of the existing security camera system

Project Update:

Project completed and accepted.
